

## How to make cord bracelets with beads- bead jewelry for beginners

Here showcased is a simple tutorial about how to make cord bracelets with beads; in particular, this tutorial is specific directions about how to make bead jewelry for beginners.

Today I will talk about cord bracelet again; as the craft tutorial is specially prepared for new hands, which can be searched via words like how to make bead jewelry for beginners, many of dab hands may think it is monotonous; however, I suggest they stay and consider a better way to boost this type of cord bracelets, and spark some new ideas about how to make cord bracelets with beads on this base.

### The materials and tools for cord bracelet:

- 2mm bugle beads (mixed)
- 8mm [acrylic beads](#) in various colors
- 10mm acrylic beads in various colors
- 0.35mm [Tiger tail wire](#)
- 1mm nylon thread
- Wire cutter Plier
- Scissors
- Lighter

### Full instructions for make bead jewelry for beginners:

#### Step 1: prepare the loop part of clasp

First, snip 12cm wire, thread 14 [bugle beads](#) on and cross both ends through last bead; Second, tighten wire, make a firm knot there and trim off excess wire.

## Step 2: thread beads on

First, make a lark's head knot on loop part;

Second, cross both strands through a smaller bead, and pull it to the top;

Third, thread both strands through a larger bead and tighten thread;

Fourth, repeat second and third process, make another pair;

Fifth, still repeat such kind of beading but just with smaller beads;

Sixth, stop with a larger bead and make a simple knot and double connecting knot there.

## Step 3: finalize the bead jewelry

Trim off excess thread and melt ends if necessary.

Till here, the project about how to make bead jewelry for beginners is over; if braid the bracelet long enough, I suggest the stacked style and with a brooch or wire wrapped flower to adorn; for other tutorials about how to make cord bracelets with beads, have some of you got a fancy idea?
