

# The Co-Archiving Toolbox

Submit documents here

This is a Co-Archiving Toolbox containing different tools that you can use for documenting your life. After using a tool, you slide your contributions into the storage section.

Everything you leave in the box will be added to archival collections. It might end up in an exhibition at a museum or in an archive, where someone could read it 50 years from now.

Thank you for sharing your story.  
All contributions are valuable.
