

1 step — material

- take 18mm MDF board.
 - size depending on the machines work space - check it
 - if you use size of board 1250 x 1500 mm you can cut maximum 3 stools
-
- for one stool you need a minimum of material: 778mm x 759 mm
 - remember that you need about 25 mm offset to fix MDF to the work space of the machine.
-
- attach the MDF board in the middle of the machines buildplate, use the screwdrivers
