Summer Pals Sandcastle Flags

© Joey Ramone/Joey's Dream Garden 2010. These images are for personal use only.

To make into flags, cut around the dotted line. Apply glue to the back of one half of the flag. Place a clean lolly stick or wooden skewer along the centre and fold the flag over while the glue is still tacky, so you should have a double-sided flag. Now, build a sandcastle and mark it yours with your bright and unique flags!
