Round 1:	mr 4	
Round 2:	inc around	(8)
Round 3:	inc around	(16)
Round 4:	(sc, inc) repeat around	(24)
Round 5:	(2sc, inc) repeat around	(32)

Round 8:	21sc, inc, sc (place a marker here, "nose marker"), inc, 24sc	(50)
Round 9:	sc around leave markers in place sl st f/o	(50)

**See pictures.** Put head pieces together right sides facing each other. It does not matter which one is the "top". Put the two nose markers together. Matching up their stitches use one of the markers to pin them together, removing the other marker. The neck markers at the top will help find the neck opening. You will not sew this gap closed. The neck markers will not line up.

You will sew the halves together with sc around working right to left. Line the pieces up starting at the nose marker. You might need to pin every few stitches until you get to the starting stitch. Make a slip knot as if you are going to start a chain. Pull the slip knot through both pieces starting at the 5th stitch from the neck marker, chain 1, and sc around through both pieces until you are at the 5th stitch from the other neck marker. Do not fasten off.

**Turn right side out.**
