

# THIS IS THE CO-ARCHIVING TOOLBOX

This is a toolbox for documenting your life. Inside the box you will find different tools that you can use to share your hopes and dreams, fears and frustrations.

After using a tool, you slide your contributions into the storage section where it will stay until the box is picked up. Everything you leave in the box will be added to the collections of the museum. It might end up in an exhibition or in an archive, where someone could read it 50 years from now. Thank you for sharing part of your story. All contributions are valuable.

By leaving your photos and stories in this box you also give Kulturen/Malmö Museer your permission to archive them and use them for research or as exhibition material for our Refugee Documentation Project. The project is a collaboration between Malmö Museer, Regional Museum Kristianstad, Kulturen and the Department of Arts and Cultural

Sciences at Lund University. We have been documenting different aspects of being a refugee, of integration, volunteer work and activism since the fall of 2015. The co-archiving toolbox was developed in a collaboration between the Refugee Documentation Project and Living Archives at Malmö University (K3).
