

Code for transmitting unique IR signals/codes

```
#include <IRremote.h>
IRsend irsend;
void setup()
{
  Serial.begin(9600); //9600 baud rate
}
void loop() {
  for (int i = 0; i < 3; i++)
  {
    irsend.sendNEC(0xFFC23D, 32); // unique code to be transmitted of 32 bit
    delay(40);
  }
}
```
