

# ME AURIGA PINOUT DIAGRAM

## PINOUT LEGEND

- 5V Power 5V
- VBAT Power VBat
- Motor Power
- GND Ground
- Digital IN-OUT / Analog IN
- Digital IN-OUT / Analog OUT
- Digital IN-OUT
- Serial communication

## CONNECTOR LEGEND

- Red means the output voltage is 6-12V, and it is usually connected to the motor driver module of 6-12V voltage.
- Single-digital port.
- Double-digital port.
- Serial port of hardware.
- Analog signal port.
- I<sup>2</sup>C port.
