

Materials:

- old glass cabinet door (40-46" x 18-24" x 3/4-1" thick)
- 1" x 2" wood (see step 6 for what kind and how much to buy)
- 1' of 1/2" dowel
- 3/4" plywood (see step 22 for size)
- (4x) 1 1/2" wood dowel pins
- wood glue
- 180 & 320 grit sand paper
- (4x) table leg mounting plates w/ screws
- (4x) Waddell 12" round taper table legs
- (5x) custom glass pieces (see step 28 for sizing)
- clear silicone
- wide painters tape
- wood finish (I chose Wood-Kote's Clear and Clean Matte Transparent finish)
- terrarium friendly plants
- plant charcoal
- potting soil
- small decorative rocks (grey & peach colored)
- animal figurines (optional)

Tools:

- power drill (I used Black & Decker's 20V MAX* Lithium Drill/Driver with Autosense Technology)
- table saw
- palm sander (I used Black & Decker's 4-in-1 SmartSelect Multi Sander)
- clamps
- tape measure
- square
- chop saw
- band saw
- (4x) corner clamps
- hand router (I used Black & Decker's MATRIX drill/driver with the router attachment)
- drill press
- palm sander
- center punch
- hammer
- 9/32" drill bit
- 1/2" forstner bit
- utility gloves
- small watering can
